

TAKE2

Victoria's climate change pledge

TAKE2 – Victoria Government's climate change pledge program

Presentation to the Environment Institute of Australia and New Zealand, Annual General Meeting, August 2016

Minister for Energy,
Environment, and
Climate Change
Hon Lily D'Ambrosio

A large, dense crowd of people walking down a city street, illustrating population growth. The crowd is diverse in age and appearance, filling the frame from the foreground to the background. In the upper center, a semi-transparent white box contains the text "8.9 million people by 2043" in a bold, green font. The background shows a city street with buildings and a red traffic light.

8.9 million people by 2043

20.6 million tonnes per year by 2043

Rising landfill

20,000 manufacturing businesses

Sustainability Victoria

“Facilitate and promote environmental sustainability in the use of resources”

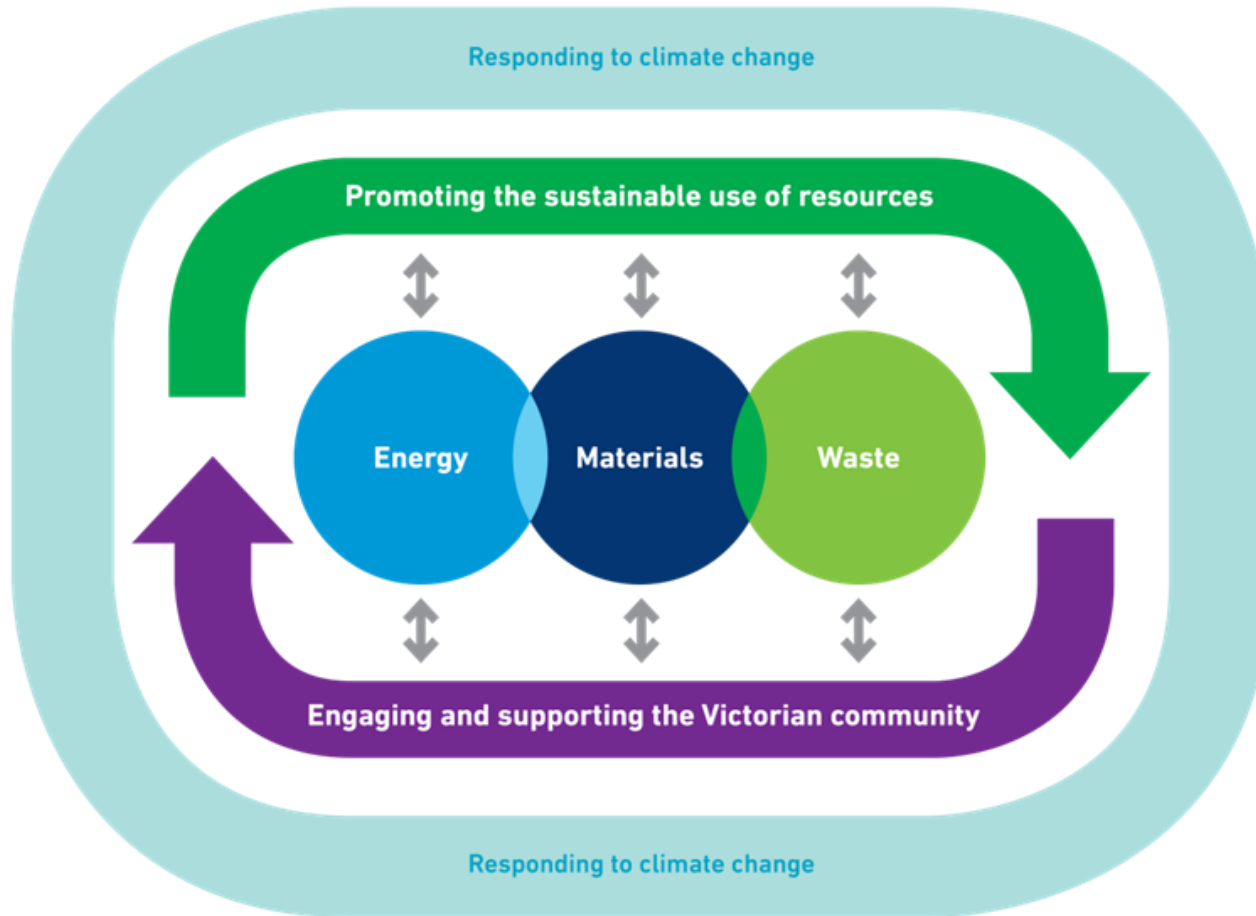

-Sustainability Victoria's objective, Sustainability Victoria Act 2005

SV2020

a sustainable
and thriving Victoria

Priority waste materials

organics (including timber)

rubber (tyres)

e-waste

flexible plastics

glass fines

concrete and bricks

The background image shows a wide landscape with rolling hills and mountains. The foreground is a valley with some sparse vegetation. The sky is clear. A color gradient is applied across the image, transitioning from a warm orange on the left to a cool blue on the right. The text is centered in the middle of the image.

A leadership position for climate change in Victoria

“Victoria is once again leading the nation when it comes to tackling climate change.”

- Premier Daniel Andrews

“We are working with business and across government to reduce emissions in Victoria.”

- Minister for Energy, Environment and Climate Change Lily D’Ambrosio

Launch

On 9 June 2016, the Premier announced Victoria's target of net zero greenhouse gas emissions by 2050, and launched TAKE2, a new, whole of government pledge program for state and local government, business, industry, and the community to pledge their own commitment to take action on climate change and keep Victoria's emissions low.

Key launch announcements

1 Independent Climate Change Act Review

2 Net zero emissions by 2050 in legislation with interim targets every five years starting 2020

3 TAKE2 – Victoria Government's Climate Change Pledge Program

4 What the Victorian Government will do as part of TAKE2

Leadership on Climate Change

TAKE2

TAKE2 is Victoria's collective climate change pledge initiative to reach net zero emissions by 2050.

The Victorian Government is committed to playing its part in keeping the global temperature rise to under 2 degrees.

TAKE2 enables all Victorians - businesses, local councils, community and educational organisations, and individuals - to be part of Victoria's action on climate change, and contribute to the first Victorian state-wide interim emissions reduction target for 2020.

We are calling on all Victorians to TAKE2 steps:

1

Right now

Take the universal pledge:
Working together, we pledge to play our part and take action on climate change for Victoria, our country and our planet by signing up via www.take2.vic.gov.au

2

In August

Share the actions you are taking to help meet Victoria's universal pledge.

Working together, we pledge to play our part
and take action on climate change for Victoria,
our country and our planet

Press to pledge

Taking Version 2 to Industry Consultation across the State

Building Version 2

Energy Management

- Make and implement a plan to manage your business energy use
- Install sub-metering to monitor your business energy use
- Etc.

Renewable Energy

- Investigate renewable energy options. Would they work for your business?
- Install solar hot water systems
- Etc.

Emission Offsets

Products and Services

Waste Reduction

Buildings

Equipment

Transport and Fleet

Purchasing and Supply Chains

Business Leadership

Why pledge?

1 Drive innovation and technology to address climate change

2 Be part of the first state government-led climate change pledging initiative in Australia, and one of the most comprehensive climate change pledging programs in the world

3 Contribute to Victoria's leadership on climate change and the first Victorian state-wide interim target to 2020

4 Showcase how you are making a difference and inspire others to do the same and be part of the solution.

TAKE2 will recognise and showcase the leadership being shown by Victorian organisations who are already taking action every day.

What's government doing?

1

Requiring every government department to make **operational pledges** to reduce emissions by ensuring its offices, fleet and assets are as energy efficient as possible and by taking advantage of clean energy capabilities and adopting new technologies (late 2016)

2

Developing **sectoral pledges** that bring about emissions reductions in our biggest sectors, such as energy, agriculture and transport, and to ensure our long term planning and policy decisions move towards low-carbon practices and technologies (late 2016)

3

Climate Change Framework (late 2016)

4

Renewable Energy Targets + Action Plan and Energy Efficiency/Productivity Strategy (late 2016)

**The Government's response
to the Independent Review
of the *Climate Change Act*
2010**

**A greenhouse gas
emissions reduction target
of net zero by 2050**

Renewable Energy Targets

25% by 2020
40% by 2025

**New Energy Jobs Fund
grants**

TAKE2

A scenic view of a beach at sunset. The sky is a clear, deep blue, transitioning to a warm orange glow near the horizon. The ocean is a mix of blue and white, with gentle waves washing onto a sandy beach. In the background, there are prominent white cliffs, some of which are illuminated by the setting sun, giving them a golden hue. A large, isolated rock formation stands in the water to the left. The overall atmosphere is peaceful and beautiful.

**Over 1,000
pledges**

'For the Planet'
is the most
popular pledge

- Because it's the right thing...
- For a better future
- For my family and friends...
- For my local community
- For the planet
- For Victoria's leadership on climate change
- For Victoria's natural environment
- For Victorian jobs and industries...

9:07 PM - 2 Aug 2016

A man wearing a blue polo shirt, blue jeans, and a green baseball cap stands in a vast field of golden wheat. He is looking down at a small plant he is holding in his hands. The field stretches to the horizon under a clear, warm sky, suggesting a sunset or sunrise. The overall scene is peaceful and agricultural.
