"...As an environmental scientist, I wanted to join an association with direct relevance to my field."

Celebrating 30 years

1987 - 2017

What prompted you to join EIANZ?

That was easy – as an environmental scientist, I wanted to join an association with direct relevance to my field.

What do you value most about being a member?

Access to training and the journal

What do you find most rewarding about a career in the environment sector?

The variety of projects and activities I carry out, getting out and about to different locations, the ability to contribute to decision making processes.

What advice would you give to recent graduates just starting out in the environment sector?

The environmental field is wide and offers a range of disciplines that can be specialised in, according to interests. Knowing how the different disciplines that make up what is environmental science mesh together for a holistic approach is very beneficial.
