EIANZ 2024 ANNUAL CONFERENCE

MOVING BEYOND TRANSITION

6 – 8 November 2024 | Sydney

Environment Institute
of Australia and
New Zealand

ABOUT EIANZ

The Environment Institute of Australia and New Zealand (EIANZ) is a professional association for environmental practitioners. We support practitioners throughout their careers – from students and early career professionals to experienced and certified practitioners, through to retirement. We harness the expertise of our members to progress environmental practice and advocate to improve sustainability outcomes.

The Institute has a certification scheme that recognises ethical and professional practice which assures government, industry, and the community of practitioners' professional standing. Our members and certified practitioners have specialist knowledge and skills in environmental systems, processes, and solutions. They bring passion, ingenuity, and creativity to their work.

ANNUAL CONFERENCE Moving Beyond Transition

Our industry has seen a lot of change in a relatively short time. But what's coming next?

Over the past 12 months, we've examined the short-term challenges facing our rapidly evolving profession. It's now time to come together, review next steps, and ready ourselves for the next stage - and the one after that.

To help us envision a way forward, delegates will be briefed on the most important takeaways from each of EIANZ's recent marquee events including our Impact Assessment Symposium, National Biodiversity Offsets Conference 3.0, Nature Positive Cities Symposium, and our two Transport & Ecology conferences. We will also reflect on outcomes and lessons from the first ever Global Nature Positive Summit, to be held in October.

CONFERENCE PROGRAM

The program will include:

- Plenary sessions
- Panel discussions
- Concurrent sessions
- Networking event
- Networking opportunities

BENEFITS FOR SPONSORS

- Demonstrates commitment to best practice environmental outcomes.
- Demonstrates commitment to young environmental professionals and their career development.
- Direct access to a captive audience of your potential future customers and / or workforce.
- Exposure to local, national, and potentially international delegates.
- Opportunity for broad exposure to delegates

We'll bring our learnings together to find multidisciplinary solutions to complex problems. How do we balance the competing priorities of renewables with those of cultural heritage and biodiversity? Which of our industry's systems and processes will soon be obsolete? How do we meet growing demand for environmental services while maintaining best practice?

We'll dive into a comprehensive range of critical topics, including:

- Evolving the environmental profession
- Emerging technical challenges
- Innovations in sustainability
- Improving social and environmental impact assessment, and post approval management
- Approaches to achieve nature positive and beyond.

Don't miss this opportunity to ready yourself for what lies ahead.
