ABOUT

Craig Smith is the Associate Director Engineering and Environment Services at the Department of Infrastructure, Planning and Logistics.

In April 2019, Craig Smith attended the Climate Reality Project Leadership Training Program in Brisbane. The Program was founded by former US Vice President Al Gore following the release of his Academy Award-winning film *An Inconvenient Truth*. It aims to empower everyday people to become activists, equipped with the tools, training and networking to fight for solutions and drive change planet-wide.

Craig will provide an overview of the Climate Reality Project Leadership Training Program and deliver its key messages.

For further information on the Program, see <https://www.climaterealityproject.org/>
